

Learning happens naturally

ABOUT ETB GLOBAL

WHO WE ARE

At **ETB Global**, we believe that travel is one of the most powerful forms of education. Backed by over **30 years** of experience through our legacy brand **Aman Travels**, we have been creating meaningful journeys that go far beyond sightseeing.

Our dedicated and passionate team - spanning education specialist, life coach, mentors, flights, hotels, transport, visas, forex, and ground operations - works seamlessly to design and deliver student-centric programs that integrate education with real-world exploration.

Our focus is to provide students with the right exposure at the right age - enabling them to learn beyond classrooms, explore new perspectives, and grow with confidence through thoughtfully curated experiences.

At **ETB GLOBAL**, our goal is to prepare students not only for academic success but also for life.

PROBLEM:

Travel makes kids smart. Agree?

Many student tours are planned as trips, not journeys. This limits the opportunity for children to learn through experience, explore with curiosity, and grow through real-world exposure.

GAP:

There is a gap between travel as entertainment and travel as education. While many tours focus only on movement and enjoyment, they often miss the deeper value of learning, observation, and personal development.

OUR VISION

To inspire a generation of confident, compassionate, and responsible global citizens by providing meaningful experiences. We envision a future where every student learns beyond textbooks, embraces diversity, and contributes positively to society.

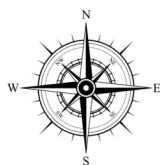

WHAT WE DO

01 School tours – Domestic and international

02 Industrial visits & workshops

03 CAS & STEM Programs

04 Adventure camps

05 School exchange programs
